

TMJ Prosthesis designed individually according to the patient's needs.

CUSTOM-MADE

People are different from each other.

Custom-made: 10 million sizes for 10 million people!

Standard: 3 sizes for 10 million people!

STANDARD

Standard prosthesis, there's a size for everyone!

Custom-made

[Cus-tom-Made]

- 1 Tailor-made prosthesis.
- 2 Personalised treatment.
- 3 Individual production.

CAST POLYETHYLENE

The safest single system, with no risk of displacement.

POLYETHYLENE WITH VITAMIN E

Protection against oxidation, reducing degradation and inflammatory response.

SLA TREATMENT WITH TRABECLES

Facilitates osseointegration.

FRONT AND REAR SUPPORT

Prevents dislocation of the system.

LOCKING SCREWS

Greater stability in fastening.

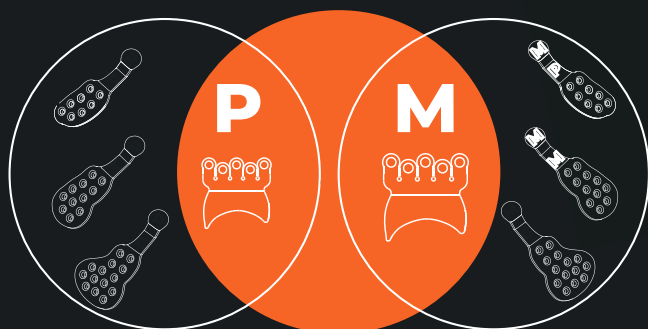

Standard

[stand . ard]

- 1 Common prosthesis, generic design.
